

Children between 11 and 13 years old are dared to join *Andrei's Country*!

Dear colleagues,

You already know about *Andrei's Country*, the summer camp where our children can enjoy green adventures and learn how to be truly responsible citizens. Now is time to tell you in detail the stages and the requirements of our new project.

Until 28 July you will be emailed a questionnaire. Between 28 July and 8 August, the questionnaire must be filled out and sent. The questionnaire will have two sets of questions. The first set of questions aims to evaluate the ecological knowledge of your children through 200 questions specially formulated for their age. The second set of questions will provide us with your social and professional status.

At the end of the questionnaire, you will find the detailed regulations of the contest, including the precise evaluation criteria. Use the provided envelope to mail free the filled questionnaire at the address already printed on the envelope.

Between 11 and 15 August 2008 our management project team will evaluate the questionnaires. The results of the contest will be announced through intranet or internal letter between 18 and 22 August 2008.

Andrei's Country awaits the little adventurers in two groups of 100 children on 31 – 5 September and 7 – 12 September at Bran Vila, Prahova County.
